A 3x3 grid of squares. The top row has 3 squares, the middle row has 3 squares, and the bottom row has 3 squares. The square in the top-right position (row 1, column 3) is missing.

[illegible]

Diagram illustrating a polymer chain segment consisting of 8 repeating units (represented by squares) followed by a dashed line and the label "GTD".

Diagram illustrating a memory layout structure. The layout consists of a long horizontal bar divided into segments. The first segment is labeled 'pgtbl' and contains 512 squares. The second segment is labeled 'stuff' and contains 512 squares. The last 256 squares of the 'stuff' segment are labeled 'inbox'.

[illegible]

A horizontal bar representing a 100-item list. The bar is divided into 100 small squares. The first 10 squares are labeled 'GTD'. The next 10 squares are labeled 'To-do list' and are highlighted with a thick black border. The remaining 80 squares are empty.
