☐ JDK Flight Recorder ☐

The diagram illustrates two garbage collection strategies. The first strategy, labeled 'CMS', shows a memory space divided into 10 blocks. The first 4 blocks are filled with black dots, representing garbage. The second strategy, labeled 'Parallel Scavenge + Serial Old GC', shows a memory space divided into 10 blocks. The first 4 blocks are filled with black dots, representing garbage. The remaining 6 blocks are empty, representing free memory.
